

Nouwen-Paesen 4 Generations Loving The Sport

Richard Cass-Quest Syndicate

We have on the approach to 40 years in the sport, Jaak Nouwen the mentor and partner of Pieter Paesen, deceased. Sam Nouwen age 9 to his left - Jaak's and Pieter's grandson. Dirk Nouwen, Jaak's son and father to Sam and Thijs- age 12 in the background.

There is considerable literature documenting the super results of the Nouwen-Paesen accomplishments at the extreme long-distance. This is available on the PIPA website and is also available at www.questsyndicatelofts.com under the Nouwen-Paesen link. There are other Nouwen family members who have made their mark including Christ Nouwen, deceased, Ber Nouwen and another Jaak Nouwen- a cousin. All race from the same core of birds.

The Jaak, Dirk, Thijs and Sam component arose years ago in the speed races with Jaak and Pieter Paesen. Jaak married Pieter's daughter, Anny. Pieter later came to live with Jaak and Anny and they decided to partner for the extreme long distance. They decided on the Cattrysse blood. What then follows is the remarkable history that has already been told. One who has access to the web cannot help but be impressed with the large number of times Nouwen-Paesen appears as foundation or ingredient blood throughout Belgium.

This article intends inform about the 2005 and 2006 results and Nouwen-Paesen status. It had to happen, the super breeder Narbonne is now sterile after 18 years of fertility. However, 25 of his direct children are preserved in the Nouwen-Paesen stock lofts. The Narbonne is internationally known as is the Euro-Region both mainstream Cattrysse based blood. Any reader looking for information on these birds, should refer to the websites mentioned.

For a second time Nouwen-Paesen has generated super consistent results from the grandfather of the extreme long distance races-Barcelona 670 miles. They were second ace pigeon all Belgium with the super Zwarte Jo over years 2001, 2002, 2003. The Barcelona race features birdages in the 20s of thousands of birds. 2006 they scored first ace pigeon all Belgium for the years 2004, 2005 and 2006. The winner, Zwarte Barca, is under consideration to fly the Barcelona 2007 and 2008 competing for the super prize Primum Interpares Barcelona.

Other persons with Nouwen-Paesen blood won 1st Provincial victories Pau, Bordeaux, St. Vincent. 2nd National Pau (Narbonne blood) 6th International Bordeaux (grandson Narbonne). 5th National St. Vincent (Narbonne blood). Another loft won 1st Provincial Champion, and others.

The young heroes Thijs and Sam Nouwen have been competing now for 2 years (with some help from Dirk). Their lofts are very basic. They are responsible to fully maintain the birds and lofts to the Nouwen-Paesen standards. They compete in the speed races. Their results for 2006 in a club of 27 members, 93 regional are impressive. 1st Ace Pigeon Young club, ages 6 to 20 years of age, 2nd Ace Pigeon Young Regional, 2nd

Champion Yearlings Club, 2nd Champion Young Club and others. In 2006 they had a 1st, 2 seconds, 1 third with yearlings. In young birds 1 1st, 2 seconds and 2 thirds.

Thijs and Sam's best bird, 5036172-06 was 1st Ace Pigeon Club, 2nd Ace Pigeon Regional and 8th Ace Pigeon National Youth Club. This remarkable bird was 2nd 208 birds 9th 1083 birds Regional from Chimay; 2nd 137 birds club, 8th 1015 birds Regional from Loan; 5th 215 birds Club, 29th 809 birds Regional from another Loan, 9th 218 birds Club, 26th 796 birds Regional- Chimay; 7th 190 birds Club, 59th 1026 Regional from Mettet. This remarkable bird also took prizes on 5 other races both Club and Region. Watch out dad and grandpa—they may decide on the long distance!!!

The Nouwen-Paesen blood was first introduced into the USA in 2003. Top results are being reported at all distances to 600 miles.

Nouwen-Paesen is a family affair with speaks volumes about their salt of the earth values as humanitarians and love of the sport.
